Sir:

Enclosed herewith is a second substitute specification for filing in the above-identified application. The second substitute specification modifies the first substitute specification by separating the SEQ. ID NO. 10 into two different sequences (SEQ. ID NO. 10 and SEQ. The undersigned hereby certifies that the substitute specification includes no new matter. A marked-up copy of the substitute specification showing the matter being added to and the matter being deleted from the specification of record is also included.

Respectfully submitted,
